Education

- **Bachelor of Technology | Computer Science and Engineering**
Symbiosis Institute Of Technology, Pune

2022 - 2024

Projects

- **Resume Builder Application**

Django, HTML, CSS, Python, SQLite

- Engineered a streamlined resume creation process using the Django Framework.
- Enabled dynamic insertion of user details into a pre-defined template.
- Ensured optimal formatting and presentation of user-provided information.

- **Assignment Portal System**

Java, PL/SQL

- Implemented a robust assignment management system for educational institutions.
- Facilitated teacher assignment uploads and student submission reviews.
- Streamlined academic workflow, enhancing overall efficiency.

- **Full-Stack Book Store Application**

HTML, CSS, JavaScript, Node.js, Express.js, MySQL

- Developed a comprehensive e-commerce platform for books with a user-friendly interface.
- Architected backend with Node.js and Express.js for efficient server-side operations.
- Integrated MySQL database for effective management of book inventory and user data.

- **PPT Summarization and Enhancement Application**

Django, Python, MongoDB

- Designed a learning tool to summarize and enhance PowerPoint presentations.
- Utilized Django and Python for backend processing and MongoDB for data storage.
- Aided in creating concise and impactful presentations from lengthy content.

- **Online Websites Scraper**

JavaScript, HTML, CSS

- Developed a web scraper to extract information about electronic gadgets.
- Implemented an attractive frontend interface for user-friendly data display.
- Enhanced accessibility of product information for users.

Experience

- **Candent Technologies Pvt. Ltd. - 2 months**

- Django - Resume Builder Application.
- Django - Personalized To-Do List Application.
- NodeJS, ExpressJS with MySQL - Company Project.

The Company project was to create a Recruitment Management System. My experience while working with the team was amazing as I could see how things work, following project lifecycle - meetings were arranged accordingly and also observe how approvals work in companies.

For the project, I had to create APIs for various functionalities of the project, learn NLP models for PDF extraction, and meet other requirements.

I also contributed to creating a database for the project, which followed a proper database creation lifecycle.

- **DevTown Full-Stack Development Course - 6 months**

- Completed an intensive full-stack web development training program.
- Gained proficiency in front-end technologies such as HTML, CSS, and JavaScript. Developed skills in back-end development using Node.js, Express.js, and MySQL.
- Worked on several projects involving the creation of fully functional web applications, and also learned best practices for code organization, testing, and deployment. Developed problem-solving skills and debugging techniques.

Skills

Programming Languages: C, C++, Java, Python

Web Technologies: HTML, CSS, JavaScript, Node.js, Express.js, Django

Databases: MySQL, MongoDB, SQLite

Tools & Platforms: Git, GitHub, VSCode, Anaconda
